

Active Air 8 Alternating Mattress Replacement

The Active Air 8 is a dynamic mattress replacement suitable for users at "High Risk" of Pressure Injury. Featuring AUTODETECT, and AUTOPROTECT, together with CELL-IN-CELL technology, the Active Air 8 provides the highest levels of care into Acute and Long Term care environments. The Active Air 8's innovative features ensure lowest interface pressures with an easy-to-use digital pump.

- Digital Pump The Easy-to-read LCD screen provides clear and precise information on cycle ime, operating mode and fault codes to assist with troubleshooting
- AutoLock Control panel automatically locks after 30 seconds, peventing accidental mode changes
- AutoDetect Based on the user's weight and size, appropriate pressure output is automatically set, ensuring optimal care and protection
- AutoProtect When the head if the bed is raised to 45º or more, air pressure automatically increases to prevent bottoming out
- Continuous Low Pressure (CLP) When activated, this mode increases user immersion and envelopment
- 24hr Transport Mode In the event of a power failure, this feature provides a security buffer allowing patients to remain on an inflated surface until power is restored
- Sleep Quality Innovative pump technology reduces noise and vibration, for a quieter sleep environment
- Infection Control Welded seams and zip protection prevent fluid and bacterial ingress into the system
- Skin Microclimate The multi-stretch cover reduces shear and offers a high MoistureVapour transfer rate (MVTR)
- Workplace Health & Safety The power cord is retained within the overlay eliminating it's potential as a trip hazard

- Pressure Care Outcomes Intelligent cell design maximises the duration of pressure reduction in the alternation cycle
- Laundry & Hygiene Machine washable cover at 95º to achieve superior sanitising

Warranty Information

• Pump: 2 Years

• Replacement: 2 Years
